

**BRAND NEW CATALOGUE
REVIGLASS COLLECTION**

REVIGLASS has renewed its image with the presentation of a new catalogue focused on high level swimming pools and entering the decoration World. This catalogue includes the **last creations, developments and innovations** of REVIGLASS, which are already at the customer's disposal in REVIGLASS' warehouse.

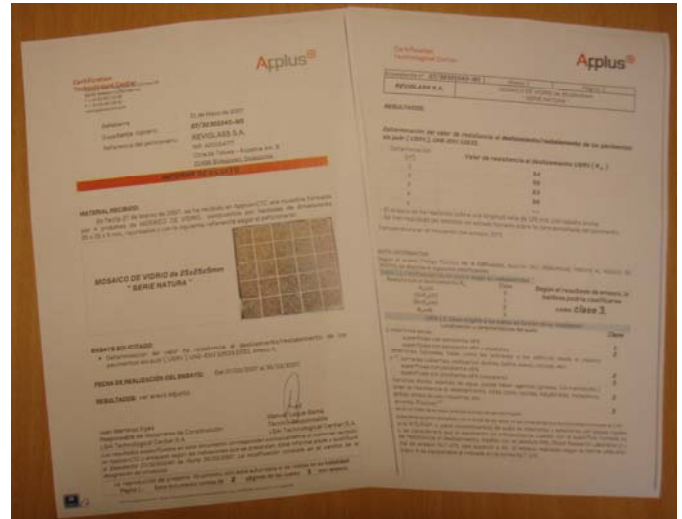

This new catalogue wants to reinforce the image of **glamour, style, distinction and elegance**, which without a doubt, REVIGLASS has provided to its mosaics from the beginning with its line **REVIGLASS COLLECTION**.

ANTISLIP MOSAIC TILES

REVIGLASS has enlarged its **range of Antislip Mosaic**.

During last CEVISAMA fair the possibility to select any colour from the catalogue to make it Antislip has been presented. This means that, besides **NATURA serie**, which gets the maximum category in Slip Resistance (**CLASS C**), any other reference from Reviglass glass tiles could get a **CLASS C** in Slip Resistance.

Therefore, Reviglass products become appropriate in any building work, public or private, at low or high level of traffic, where safety surfaces against falls it is required.

REVIGLASS Test for Slip Resistance of Flooring Materials

REVIGLASS COLLECTION

REVIGLASS, attending to its goal for the innovation and development of new products, showed in CEVISAMA its latest innovations with regard to our products. Remarkable are the follows:

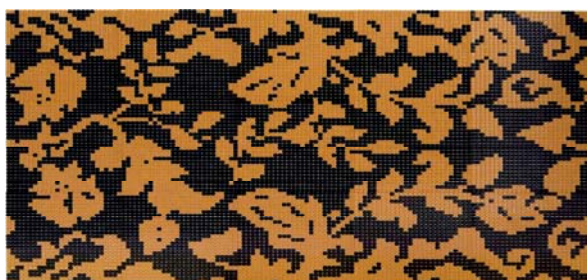

- **12 x 12 mm Glass mosaic:** Reviglass has decided once again to go for the small format and high quality glass mosaic. Available in several colours, mixtures, as well as with iridescent effect, it will satisfy the most exigent designers and interior decorators.
- **Decoration bordures:** Reviglass offers new bordures for high level swimming pools with more glamour and distinction. For those modern or those ones wherein looking for a golden or silver touch of elegance, Reviglass offers its best products always with the best delivery dates.

- **Printed Mosaic:** Reviglass will offer very shortly the possibility of printing any image or photograph on top of its glass mosaics products. In contrast with other similar products from different suppliers, the printed mosaic of Reviglass will be carried out with ceramic pigments, which assures the resistance of those pigments to any chemical attack. This fact makes our product optimum for its application in the swimming pools of the most exigent people!.

- **Modular designs and new mixtures:** In order to satisfy the needs of decoration of architects, designers, interior decorators and our most exigent customers, Reviglass has created one standard series of modular designs. Available in the 25 x 25 mm and 12 x 12 mm formats, these designs will be able to be personalized to the needs and satisfaction of each customer.

NEW INCORPORATIONS

¡Reviglass continues backing its product and service! That's why Reviglass continues extending its sales team, in order to reach more customers in more countries and to give them a better service. Our newest work-maids in the Export Dept. are **Arantxa Biurrarena** (French talking countries) and **Unai Badia** (Middle East). Likewise **Álvaro**
